

# West Coast Health Facilities Redevelopment Update

West Coast District Health Board

August 2017

Above: Members of the Hospital Redevelopment Partnership Group and the West Coast Facilities Project Team visited the new Grey health facilities site recently

## Campus realignment

We're still working on where services not moving into the new facility will be placed. We call this Campus Realignment. Once we've fixed this information in place, we will be letting the community know, so if you have an appointment with a particular service, you'll know exactly where to find that service. Not all services are changing, so stand by for more updates.

Above: View of the new Grey Base Hospital from Waterwalk Rd looking South.

If you want to keep a track of progress, or see what's coming up next, there's some information and videos on [www.westcoastdhb.health.nz](http://www.westcoastdhb.health.nz) and on the Facebook page WCDHB Careers. Or check out the Ministry of Health's website ([www.health.govt.nz](http://www.health.govt.nz)) – look under the "Our work" tab along the top, and search for "Hospital redevelopment projects" then you'll find information and photos.

If you have any concerns, you can contact the DHB facilities administrator, [newfacilities@wcdhb.health.nz](mailto:newfacilities@wcdhb.health.nz), or ring the hospital on 769 7400 and ask to speak to the facilities administrator.

## Façade

With the terrible tragedy that occurred at Grenfell Tower in the UK, all buildings and building plans in New Zealand have been under inspection. The exterior cladding of the new Grey Base facility is made out of aluminium composite panels, and is fabricated with a fire retardant. The facility will also have a state of the art sprinkler system.

## Milestones

- **Main hospital building**
  - Southern wing steel is being erected
  - Northern wing floor concreting being completed
  - Northern wing roofing continues
- **Boiler house construction has commenced.**

## Walkbridge over railway line

Planning continues after negotiations with KiwiRail showed we needed to lift the height of the new footbridge being designed. When it has been approved and consented by the Grey District Council, the design will go out to tender and we're hopeful it will be built around the end of 2017.

*Thanks and here's to some good weather for the rest of winter!*
