

# HOSPITAL ADVISORY COMMITTEE MEETING

8 June 2017

## 11.00am

Board Room, Corporate Office Grey Base Hospital

## AGENDA AND MEETING PAPERS

ALL INFORMATION CONTAINED IN THESE COMMITTEE PAPERS IS SUBJECT TO CHANGE

The functions of the Hospital Advisory Committee, in accordance with their Terms of Reference and the New Zealand Public Health and Disability Act 2000 are:

- to monitor the financial and operational performance of the hospital and specialist services of the West Coast DHB; and
- to assess strategic issues relating to the provision of hospital and specialist services by the West Coast DHB; and
- to give the Board advice and recommendations on that monitoring and that assessment.

The Hospital Advisory Committee's advice to the Board must be consistent with the priorities identified in the New Zealand Health Strategy and with the Strategic Plan of the West Coast DHB.

## DRAFT

## MINUTES OF THE HOSPITAL ADVISORY COMMITTEE MEETING held in the Board Room, Grey Base Hospital, Corporate Office, on Thursday 27 April 2017, commencing at 11am

## PRESENT

Michelle Lomax (Chair); Chris Auchinvole; Kevin Brown; Paula Cutbush; Gail Howard; Chris Lim; Nigel Ogilvie; and Jenny Black.

## APOLOGIES

Apologies were received and accepted from Richard Wallace & Chris Mackenzie

## MANAGEMENT SUPPORT

Philip Wheble (Interim General Manager, Grey/Westland); Karyn Bousfield (Director of Nursing); Justine White, (General Manager, Finance); and Kay Jenkins (Minutes)

## IN ATTENDANCE

Elinor Stratford

## WELCOME

Everyone joined in the Karakia

## 1. INTEREST REGISTER

There were no changes to the Interest Register.

There were no interests declared for items on today's agenda.

There were no perceived conflicts of interest.

## 2. CONFIRMATION OF PREVIOUS MEETING MINUTES

## Resolution (2/17)

(Moved: Paula Cutbush/Seconded: Gail Howard - carried)

That the minutes of the meeting of the Hospital Advisory Committee held on 10 March 2017 be confirmed as a true and correct record.

## 3. CARRIED FORWARD/ACTION ITEMS

There were no carried forward items.

## 4. HOSPITAL AND SPECIALIST SERVICE (H&SS) MANAGEMENT REPORT

Philip Wheble, Interim General Manager, Grey/Westland presented the report. He highlighted the following most notable features as:

- Welcome to the new Director of Midwifery Norma Campbell;
- Increased focus on communication on the medical ward; and
- The endoscopy service has continued its strong performance following transformations in the last 6 months.

He expanded on the increased focus on communication and the Committee noted that this focus is across the service as a whole and is a real focus for this year. It was also noted that the majority of complaints received by the DHB have a communication aspect to them. Mr Wheble advised that Brian Dolan, Director of Service Improvement, Canterbury DHB, came to the West Coast and spoke with staff around how we communicate with patients, families and each other which has proved to be very beneficial. In addition the Clinical Nurse Specialist in Morice Ward has been undertaking a lot of work in this area.

In regard to the endoscopy service, Mr Wheble highlighted that the West Coast has continued its strong performance in this area following transformations in the last 6 months. February data has it at number 2 nationally against the Ministry of Health colonoscopy indicators. An Endoscopy Nurse Coordinator has been employed to continue the transformation into a patient focused service and support the work towards the accreditation needed in preparation for a bowel screening program rollout.

Discussion took place regarding DNA rates and the Committee noted that management are looking to see what can be done differently and how we communicate with our patients in a timely manner. Some work has been undertaken around getting appointment advice out earlier and this appears to be impacting on the DNA rates.

Discussion also took place regarding transport options and whether these are detailed in the advice letters. The Committee noted that this is mainly provided for patients travelling to Christchurch under the National Transport Agreement however we are reviewing whether we are providing the correct information and if it is in a timely manner.

A query was made regarding the provision of an advocate when patients do not have support and it was noted that the DHB does try to encourage this and is part of the whole communication package.

Discussion took place regarding the communication being provided to patients who are referred back to their GP for treatment when they do not meet the criteria for surgery and updates on this will be provided as required.

The Committee asked for some reassurance that there is some mitigation taking place around ESPI compliance and it was noted that work is continuing around this with teams in Christchurch regarding solutions. Whilst the DHB will not be "red" in month 4, there is no assurance of a sustainable solution as yet.

## Resolution (3/17)

(Moved: Nigel Ogilvie/Seconded: Chris Lim – carried)That the Committee:i. Notes the management report.

## 5. FINANCE REPORT

Justine White, General Manager Finance, presented this report which showed that the consolidated West Coast District Health Board financial result for the month of March 2017 was a deficit of \$93k, which was \$72k unfavourable to budget. The year to date position is \$161k unfavourable.

Ms White advised that there are essentially two concerns currently: personnel costs; and patient revenue.

Contributing to the personnel costs is the additional work required to meet ESPI targets and in the revenue area a lot of work is being undertaken to understand why this is lower than expected and the outturn for the rest of the year.

A query was made regarding how the DHB prioritises where the money is spent and it was noted that Clinicians make collective decisions around where we put our resources. There is also the tension of individual treatment versus the whole system and we try to put the patient at the centre of these decisions.

## Resolution (4/17)

(Moved: Nigel Ogilvie/Seconded: Chris Lim – carried) That the Committee

i. Notes the finance result and related matters for the period ending 31 March 2017.

## 6. CLINICAL LEADERS REPORT

Karyn Bousfield, Director of Nursing, presented this report.

The Committee noted that South Island Nursing leaders have agreed to develop a framework around the Nurse Prescribing process with a working group from across the system and with Otago University postgraduate school of nursing being supported by the South Island Alliance workforce team.

Ms Bousfield highlighted the great success story in Quality & Safety around how many aged care patients have had their InterRAI assessments completed.

The Committee also noted that feedback from Granger House last week has been really good.

Discussion took place regarding the effect of the closure of Kowhai Manor on access to Aged Residential Care and the Committee noted that this is not an issue currently however this is being closely monitored.

#### Resolution (5/17)

(Moved: Nigel Ogilvie/Seconded: Gail Howard – carried) That the Committee

i. Notes the Clinical Leaders' Update

## **INFORMATION ITEMS**

- Chair's report to last Board meeting.
- Board Agenda 24 March 2017
- 2017 HAC Workplan
- West Coast DHB Meeting Schedule 2017.

There being no further business the meeting closed at 12.10pm

Confirmed as a true and correct record.

Michelle Lomax, Chair

## **MANAGEMENT REPORT**

## TO: Chair and Members Hospital Advisory Committee

## SOURCE: General Manager Grey Westland | General Manager Buller

DATE: 8 June 2017

| Decision | Noting | Information |  |
|----------|--------|-------------|--|
|          |        |             |  |

## 1. ORIGIN OF THE REPORT

This is a standing report to the West Coast District Health Board Hospital Advisory Committee. It outlines progress in relation to service delivery across the District Health Board's Provider Arm.

## 2. <u>RECOMMENDATION</u>

That the Hospital Advisory Committee:

i. Notes the Management Report.

## 3. <u>SUMMARY</u>

This report is intended to:

- provide greater insights into the nature and flow of activity in, and through, the secondary care component of the West Coast health system;
- reflect a patient-centric view of services, being the 'patient journey' through the system; and
- provide greater clarity of, and focus on, key metrics.

The report is broken into six sections: 4.1 - Activity, 4.2 - Workforce Updates, 4.3 - Patient, 4.4 - Health Targets, 4.5 - Quality, 4.6 - Specific Requests [when applicable]. Further changes to graphics and content will occur as well, including the graphic representation of primary care in the acute patient's journey.

The following are the most notable features of the report:

- Rural Generalist Medical Workforce project starting soon
- Central Booking Unit looking at DNAs
- ESPI results improve but there will be ongoing challenges

## 4. DISCUSSION

4.1 Activity

## Volumes

This Provider Arm Report includes base service level agreement volumes against year-to-date delivery for the 2016-17 financial year (excluding ACC-funded activity). This report covers the 10-month period to 30 April 2017.

## Inpatient Volumes

Overall case-weighted discharge [CWD] throughput from Grey Base Hospital remained well behind YTD contracted volumes for surgical specialty services; offset by significantly higher throughputs in medical specialty services. Overall, net delivery of contracted caseweights was up by 3.2%.

The split between acute and electives were as follows:

| CASE WEIGHTS<br>[CWD] | CONTRACTED<br>YTD | ACTUAL<br>YTD | VARIANCE | % VARIATION |
|-----------------------|-------------------|---------------|----------|-------------|
| Surgical              |                   |               |          |             |
| Acute                 | 934.24            | 773.53        | -160.71  | -27.3%      |
| Elective              | 1027.29           | 824.82        | -202.47  | -19.7%      |
| Sub-Total Surgical:   | 1961.53           | 1598.35       | -363.18  | -18.5%      |
|                       |                   |               |          |             |
| Medical               |                   |               |          |             |
| Acute                 | 1160.09           | 1622.98       | 462.89   | 39.9%       |
| Elective              | 0                 | 0             | 0        | 0%          |
| Sub-Total Medical:    | 1160.09           | 1622.98       | 462.89   | 39.9%       |
|                       |                   |               |          |             |
| TOTALS:               | 3121.63           | 3221.33       | 99.7     | 3.2%        |

## Outpatient Volumes

Provider Arm outpatient delivery for specialist surgical and medical services in the 10 months to 30 April remains down 9.2 % from expected volumes overall (down 1094 attendances). Among surgical specialities, there have been fewer locally-delivered outpatient orthopaedic, ENT and urology attendances, along with fewer general surgery follow-ups. Individually, medical department outpatient clinics are largely on track; the overall shortfall being largely driven by a lack of dermatology and gastroenterology clinics in the current year, as well as fewer general medical follow-ups appointments

The overall split between 1st visit and subsequent visit during the nine months to 30 April 2017 was as follows:

| ATTENDANCES           | CONTRACTED                            | ONTRACTED ACTUAL VARIANCE |       |        |  |
|-----------------------|---------------------------------------|---------------------------|-------|--------|--|
| Surgical              |                                       |                           |       |        |  |
| 1 <sup>st</sup> Visit | 2813                                  | 2603                      | -210  | -7.4%  |  |
| Sub. Visit            | 4517                                  | 3969                      | -548  | -12.1% |  |
| Sub-Total Surgical:   | 7330                                  | 6572                      | -758  | -10.3% |  |

• The DNA project has been reinvigorated with a media release in May. This is to notify patients that we will be ringing them when they miss appointments. Staff will be working from a script so we can establish if there are any processes we need to change to ensure people make it to specialist appointments.

## 4.2 Workforce Update

## Nursing

- Improved staff levels and processes have seen nursing work in an efficient and effective way to provide care. Examples of this are better integration with teams such as allied and CCCN to provide safe discharge of patients into the community.
- A recent audit on falls throughout the DHB saw a number of wards obtain between 95-100% accuracy in assessing and recording falls risk. This resulted in a cake being delivered to nurses on the wards which was gratefully received and gave everyone a lift in spirits.
- It is pleasing to note that casual and sick leave hours have decreased this month by 6.5%. This has allowed the ability to offer annual leave which has increased by 12%. The medical ward has had a 7.3% increase in occupancy, with the surgical ward also increasing by 3.5%, again this is due to medical overflows.
- The wards continue to work on improving "End PJ Paralysis" and IDEAL. Posters are being rotated on walls to keep these projects alive in the hope it will be embedded into staffs every day work.

## Medical

- We are offering a position to a General Surgeon in the coming weeks.
- We have interviewed an Anaesthetist and are checking references but this is very positive.
- We have had further interest in our RHM vacancy.
- We are interviewing a General Physician this month.

- The junior doctor workforce is fully recruited this quarter and we are filling vacancies for later in the year. The annual recruitment cycle for 2018 has commenced and we have strong interest so far.
- Rural Generalist Medical Workforce project starting soon.

## **Reefton Health**

- Medical Centre Integration and work across practice, primary, community and ARC is continuing with functional elements becoming more integrated. Work continues on the leadership structure for the Reefton IFHC however this is influenced by the end result of the West Coast DHB leadership document and the primary community project feedback.
- Aged Residential Care Currently 8 hospital level and 3 residential level residents and one palliative patient.

## Allied Health

- Work continues exploring and updating the frameworks for triaging across Allied Health services. While this is still in its early stages, opportunities are already being identified to better prioritise referrals and communicate more effectively with referrers.
- Use of "dashboards" to present data in meaningful ways will allow us to bring visibility to a range of measures around how well we are responding to referrals for service. The first dashboard to be made available on the intranet will make it possible for staff to see how many people are using a service, some of the demographics of these people such as age range or gender, and the referral reasons. Providing "all the time" access to staff to engage with this information has been shown to improve their understanding of how their activity supports the health system goals, and invites staff to identify opportunities to improve the system.
- A survey of all Allied Health staff and the ways they engage with managerial/administrative, clinical and professional supervision has just been undertaken. Once the results are collated, these will be published for staff, and used to support development of local supervision training opportunities.
- Our Social Work staff will be gathering together, along with their colleagues from statutory and non-government organisations, to workshop how health social work could be delivered in meaningful ways that reach people who need them throughout the district. This workshop will explore the current context, consider the proposed Primary and Community Model of Care, and the Future State for Mental Health services.
- This workshop model will then be used with other Allied Health professions, such as Occupational Therapy and Physiotherapy, as we work together to prepare for the new facilities and ways of working.

## **Industrial Relations**

## Negotiations Update:

- SMO MECA (ASMS) 12 May 2017: formal bargaining recommences on 15 May 2017.
- Nurses MECA (NZNO) 28 April 2017: DHBs are continuing the analysis of the Workforce Assessment report and the Ministry expects to receive the bargaining strategy towards the end of May 2017.

## Recruitment

| New Vacancies        | 7    |
|----------------------|------|
| Total Open Vacancies | 32   |
| Total FTE Recruiting | 37.8 |
| Appointed Vacancies  | 7    |
| Total FTE Appointed  | 3.3  |
| Casual               | 2    |

- Approximately half of the currently listed roles have closed, with about half of those in the final stages of recruitment, i.e. reference checks or appointment forms to be finalised.
- Recent interviews for a General Surgeon yielded two suitable applicants, of which one will be offered a position.
- Recent interview for an Anaesthetist looks positive, with verbal reference checks currently underway.
- Nursing recruitment continues to be the majority of roles being advertised, with some challenges experienced in recruiting more senior or specialist roles.
- Corporate roles remain steady as does the number of applicants for these vacancies.
- GP locums becoming harder to source. Agencies confirm there are fewer locums around nationally than in past years.

## 4.3 Patient

## Patient Transfers

- The number of tertiary patient transfers from Grey Base and Buller hospitals decreased from 48 transfers in March to 37 transfers in April. The majority of transfers in March were for orthopaedic and surgical patients and in April evenly for surgical, orthopaedic and medical patients, with the principal methods of transportation being via ambulance and pressurised aircraft.
- The main reason for the transfers in March and April was for 'Specialty Care not available at Grey Base Hospital'.
- For patients transferred from Buller to Grey Base, the numbers increased from 18 transfers in March to 35 transfers in April. Most of these transfers were for medical and surgical patients, and the majority were transported to Grey Base via ambulance in March and hospital board car in April 2017.
- There was an increase in patient transfers from Reefton to Grey Base from 1 in March to 6 in April. The transfer in March was for a medical patient and the April transfers were for mainly surgical patients.
- All figures provided include those recorded as transferring via private motor vehicle.

## 4.4 Health Targets

## Health Target progress

## Quarterly & progress data

|   | Target  | Q4<br>15/16 | Q1<br>16/17 | Q2<br>16/17 | Q3<br>16/17 | Target | Current<br>Status | Progress   |
|---|---|-------------|-------------|-------------|-------------|--------|-------------------|--|
| Shorter<br>stays in<br>Emergency<br>Departments | Shorter Stays in ED<br>Patients admitted, discharged or transferred<br>from an ED within 6 hours <sup>1</sup>   | 100%        | 99%         | 99%         | 100%        | 95%    | ~                 | The West Coast continues to achieve the ED health target, with 99.6% of patients admitted, discharged or transferred from ED within 6 hours during quarter three.  |
| Improved<br>access to<br>Lective Surgery        | Improved Access to Elective Surgery<br>West Coast's volume of elective surgery  | 1,942       | 480         | 991         | 1,441       | 1,906  | ~                 | This quarter, West Coast DHB provided 1,441 elective surgical discharges, delivering 105.5% of planned discharges.   |
| Faster  | Faster Cancer Treatment<br>Patients receive their first cancer treatment<br>(or other management) within 62 days of<br>being referred with a high suspicion of cancer | 80%         | 63%         | 76%         | 83%         | 85%    | ×                 | Performance increased this quarter to 83.3% of patients receiving their first cancer treatment (or other management) within 62 days of being referred with a high suspicion of cancer.<br>Small numbers are challenging with this result reflecting only four non-compliant patients.<br>Audits into patient pathways have taken place with no capacity issues identified.   |
| Increased<br>Increased<br>Inmunisation          | Increased Immunisation<br>Eight-month-olds fully immunised  | 78%         | 76%         | 80%         | 91%         | 95%    | ×                 | <ul> <li>During quarter three, 91.4% of all eight-month-olds were fully immunised with just one child missed.</li> <li>Coverage by ethnicity was achieved for all groups, with 100% of Maori and Asian children vaccinated and 96.4% of NZE children.</li> <li>Opt-off (5) and declines (1) increased slightly this quarter to a combined 7.4%. This continues to make meeting the target impossible. We are pleased 99% of our consenting population were immunised.</li> </ul> |

<sup>1</sup> Greymouth Emergency Department only

| Та | nrget   | Q4<br>15/16 | Q1<br>16/17 | Q2<br>16/17 | Q3<br>16/17 | Target | Current<br>Status | Progress  |
|----|---|-------------|-------------|-------------|-------------|--------|-------------------|---|
|    | r Smokers to Quit<br>okers receiving help and                   | 79%         | 84%         | 91%         | 92%         | 90%    | ~                 | West Coast health practitioners have reported giving 4,888 smokers cessation advice in the 18 months ending March 2017. This represents 92% of smokers against the 90% target. The DHB is pleased to have exceeded the target this quarter not only for total population but also for Maori and High Needs  |
|    | e children identified at B4SC<br>Il for clinical assessment and | New         | 40%         | 0%          | 17%         | 95%    | ×                 | This quarter, six children were identified as obese with two referred. Of the two referrals, one declined and one was not acknowledged. This is counted as 1/6 children referred—17%. While this is disappointing, technical issues are contributing to this with three of those four missed children having had an incorrect BMI calculation.<br>Key staff have met and investigated this result, identifying challenges in accessing the correct BMI at the B4 School Check (B4SC) due to limited database access from poor internet connectivity at clinic sites. This issue is being discussed at a national level and the DHB continues to work to find an off-line digital solution. Meanwhile, a hard copy chart is in use and B4SC staff are encouraged to offer referrals to children close to the 98th centile. |

Emergency

Shorter

stays in

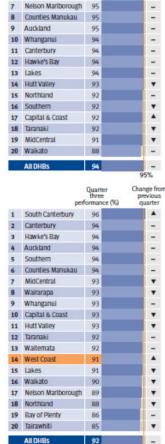

#### Shorter stays in Emergency Departments

The target is 95 percent of patients will be admitted, discharged, or transferred from an Emergency Department (ED) within six hours. The target is a measure of the efficiency of flow of acute (urgent) patients through public hospitals, and home again.

#### Increased Immunisation

The national immunisation target is 95 percent of eightmonth-olds have their primary course of immunisation at six weeks, three months and five months on time. This quarterly progress result includes children who turned eightmonths between 1 January and 31 March 2017 and who were fully immunised at that stage.

#### Faster cancer treatment

The target is 85 percent of patients receive their first cancer treatment (or other management) within 62 days of being referred with a high suspicion of cancer and a need to be seen within two weeks. Results cover those patients who received their first cancer treatment between 1 October 2016 and 31 March 2017.

#### Raising healthy kids

The target is that by December 2017, 95 percent of obese children identified in the Before School Check programme will be offered a referral to a health professional for clinical assessment and family based nutrition, activity and lifestyle interventions. Data is based on all acknowledged referrals for obese children up to the end of the quarter from Before School Checks occurring in the six months between 1 September 2016 to 28 February 2017.

This information should be read in conjunction with the details on the website www.health.govt.nz/healthtargets

Health target results are sourced from individual DHB reports, national collections systems and information provided by primary care organisations.

## Elective Services Patient Indicators [ESPI Compliance]

## ESPI 2 FSA (First Specialist Assessment)

There was just one orthopaedic patient waiting over 120 days for their outpatient First Specialist Assessment as at the end of March, following a concerted effort during the month to get outstanding non-complaint cases seen and assessed. Periodic delays in orthopaedic wait times for assessment referrals remains an ongoing issue and will likely continue in the immediate future due to transalpine staffing and service constraints.

## ESPI 5 (Treatment)

The DHB exceeded the 120-day maximum wait times from FSA to surgical treatment for two orthopaedic and one plastic surgery patient as at end of March 2017. This result was within compliance tolerance levels, at 1.7% of total wait listed cases.

## **MoH Elective Services Online**

Summary of Patient Flow Indicator (ESPI) results for each DHB

Data Warehouse Refresh Date: 28/Apr/2017

Report Run Date: 01/May/2017

- Notes: 1. Before July 2016 the required timeframe for ESPI 1 is 10 working days, and from July 2016 the required timeframe for ESPI 1 is 15 calendar days. 2. Before July 2013 the required timeframe for ESPI 2 and ESPI 5 is 6 months, between July 2013 and December 2014 the required timeframe for ESPI 2 is 5 months and from January 2015 the required timeframe for ESPI 2 and ESPI 5 is 4 months. 3. ESPI results do not include non-elective patients, or elective patients awaiting planned, staged or surveillance procedures. Medical specialties are currently included in ESPI 1, ESPI 2 and ESPI 5 but excluded from other ESPIs. 4. Before July 2016 ESPI 1 will be Green if 100%, Yellow if between 90% and 80.0%, and Red if 90% or less. DHB Level 'Non-compliant Red' staus for ESPI 1 is temporarily removed for the 2016/17 year so from July 2018 ESPI 1 will be Green if 0.2% of the or equal to 10 patients or less than 0.30%, and Red if 0.4% or higher. 5. ESPI 2 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 1% or higher. 7. ESPI 5 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 1% or higher. 8. ESPI 8 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 1% or higher. 8. ESPI 8 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 15% or higher. 8. ESPI 8 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 1% or higher. 8. ESPI 8 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 14.99%, and Red if 15% or higher. 8. ESPI 8 will be Green if 0 patients, Yellow if greater than 0 patients and less than or equal to 10 patients or less than 0.99%, and Red if 15% o

10. From 01 July 2015 the ESP18 calculation changed from the tools that were used to prioritise patients who exited during the month to the tools used to prioritise patients during the month. Please contact the Ministry of Health's Electives team if you have any queries about ESP1s (elective services@moh.govt.nz).

## 4.5 Quality

Hospital Services Incidents recorded in Safety1st for the 3 months to April 2017

| GREY / WESTLAND               |     |     |     |
|-------------------------------|-----|-----|-----|
| Grey Base & Reefton Hospitals | Feb | Mar | Apr |
| Drain and Tube                | 0   | 0   | 1   |
| Employee                      | 4   | 7   | 1   |
| Fall                          | 5   | 10  | 4   |
| Hazard Register               | 2   | 0   | 0   |
| Infection                     | 0   | 0   | 1   |
| Labs / Specimen               | 7   | 4   | 5   |
| Labour and delivery           | 1   | 0   | 0   |
| Medication and IV Fluids      | 2   | 9   | 10  |
| Provision of Care             | 1   | 3   | 4   |
| Radiology                     | 0   | 2   | 5   |
| Security                      | 0   | 1   | 0   |
| Skin / tissue                 | 2   | 0   | 1   |
| Totals                        | 24  | 36  | 32  |

 Medication Errors are a focus for the KPIs of the CNMs at the moment; so increased reporting has occurred. The errors themselves are not serious – low level with no harm to the patients.

## Maternity

- Midwives day was celebrated on 5 May. The theme this year was "Midwives, Mothers and Families Partners for Life". We combined that with a farewell afternoon tea for Chris Davey, our Clinical Midwifery Manager, who has left the role to pursue more maternity challenges overseas. There was a group photo of the midwives in the local Messenger as well.
- Recruitment is well underway for a suitable replacement. Emails were sent country-wide to all the College of Midwives members, advertising the position.
- Norma Campbell, the new Director of Midwifery for Canterbury and West Coast, made her first visit to Grey Base Hospital since taking up her role. This will bring closer maternity links with our transalpine alliance. It is great to have Norma on board and she will be a wonderful asset to our maternity team.
- There have been 24 births this month to date with a few more due before the end of May.
- Kawatiri has been quieter this month with one birth and several women who birthed in McBrearty from Westport returning for postnatal care.
- We held the STABLE (post-resuscitation/pre-transport stabilisation care of sick infants) course in May with 17 participants from midwives to RMOs. Our thanks to Maggie Meeks and Bronwyn Dixon, Neonatologists from Christchurch Women's, giving up their time freely to travel and teach on the West Coast. This was a great learning opportunity for those involved with stabilising sick infants.

Philip Wheble, Interim GM Grey | Westland Michael Frampton, Programme Director

## TO: Chair and Members Hospital Advisory Committee

SOURCE: Finance

DATE: 8 June 2017

Report Status – For: Decision 🗆 Noting 🗹 Information 🗆

## 1. ORIGIN OF THE REPORT

The purpose of this paper is to provide a regular monthly report of the financial results of the West Coast District Health Board and other financial related matters.

## 2. <u>RECOMMENDATION</u>

That the Committee:

i. notes the financial result and related matters for the period ended 30 April 2017.

## 3. FINANCIAL RESULT

The consolidated West Coast District Health Board financial result for the month of April 2017 was a deficit of \$145k, which was \$86k unfavourable to budget. The year to date position is \$247 unfavourable.

The table below provides the breakdown of April's result.

|  |        | Monthly F | Reporting |      |         | Year to | Date    |      |

Report prepared by:

Justine White, General Manager Finance & Corporate Services

## FINANCIAL PERFORMANCE OVERVIEW – APRIL 2017

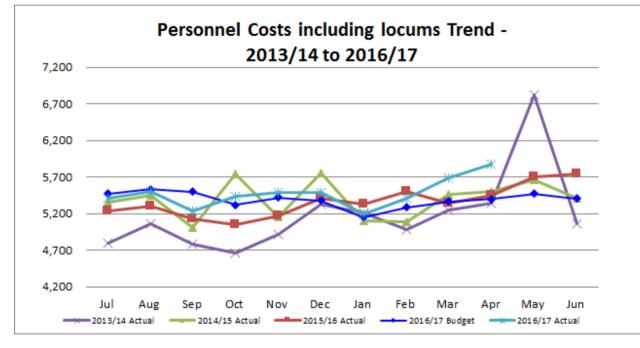

We have submitted an Annual Plan with a planned deficit of \$554k, which reflects the financial results anticipated in the facilities business case, after adjustment for known adjustments such as the increased revenue as notified in May 2016. At this stage we are forecasting a year end result of \$850k deficit which is a deterioration to budget; this reflects the remainder of the year largely on plan, but an inability to improve from that plan to offset the year to date variance.

Revenue from ACC and Patient related sources is significantly lower than both budget and prior year's levels – we are continuing to examine the causes of this reduction.

**KEY RISKS AND ISSUES:** It is important to note the budget is phased according to activity, with the first quarter of the year anticipated to be the heaviest months of activity, and the third quarter (January – March) the lightest.

## **PERSONNEL COSTS (including locum costs)**

|                    | Month<br>Actual<br>\$'000 | Month<br>Budget<br>\$'000 | <b>Month</b><br>\$'000 | Variance | e | YTD Actual<br>\$'000 | YTD Budget<br>\$'000 | <b>YTD V</b><br>\$'000 | ariance |   |

| Total              | 5,876                     | 5,394                     | (482)                  |          |   | 54,743               | 53,794               | (949)                  |         |   |

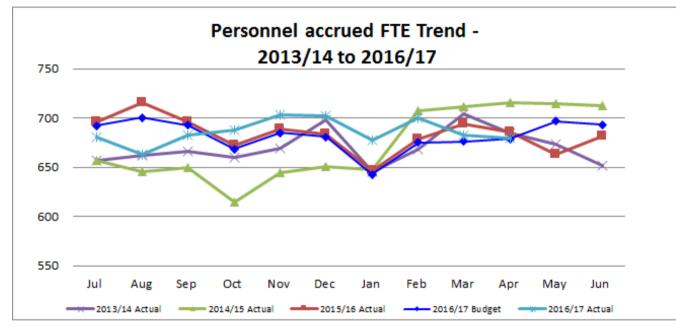

Personnel costs are unfavourable for the month, the level of the combined personnel costs is a continuing concern, noting that locum costs are included therefore there will always be a level of fluctuation in this category. Finance continues to work closely with managers to understand the drivers for the increase costs, and to manage the impacts of this going forward, this includes detailed reviews of resource capacity and demand activity matching and roster analysis.

**KEY RISKS AND ISSUES:** Although better use of stabilised rosters and leave planning has been embedded within the business, this stability is frustrated by unexpected turnover, and planned leave in the smaller services, this requires reliance on short term placements, which are more expensive than permanent staff.

## **PERSONNEL ACCRUED FTE**

|                    | Month<br>Actual | Month<br>Budget | Month | Variand | e                    | YTD Average<br>FTE Actual | YTD Average<br>FTE Budget | YTD V | ariance |   |

| Support            | 16              | 17              | 1     | 7%      | <ul> <li></li> </ul> | 18                        | 18                        | 0     | 0%      | ~ |
| Management & Admin | 122             | 123             | 1     | 1%      | <ul> <li></li> </ul> | 125                       | 124                       | (1)   | -1%     | × |
| Total              | 680             | 679             | (1)   |         |                      | 685                       | 679                       | (5)   |         |   |

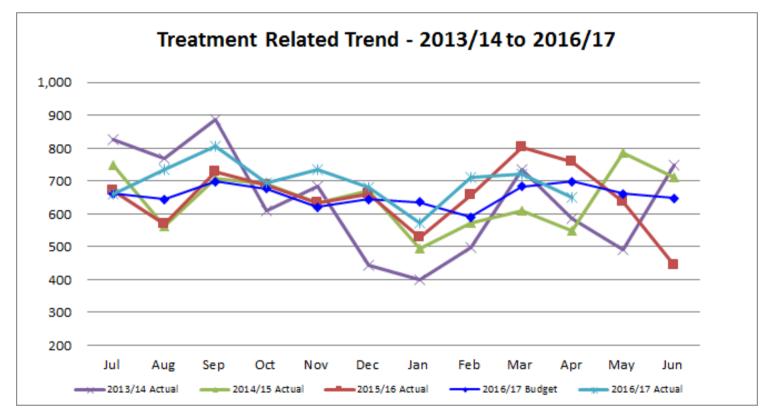

Accrued FTE is influenced by leave taken throughout the period, the current period results are impacted by general employee churn and recruitment of staff in the Buller region.

NB: The methodology to calculate accrued FTE causes fluctuations on a month to month basis dependant on a number of factors such as working days, the accrual proportions, etc.

**KEY RISKS AND ISSUES:** The Ministry of Health has a keen focus on ensuring DHBs do not exceed their management and administration staff FTE numbers. There are many ways FTE can be calculated, depending on the purpose. Using Ministry of Health calculations we remain under our overall management and administration staff cap. Expectations from the Ministry of Health are that we should be reducing management and administration FTE each year. This is an area we are monitoring intensively to ensure that we remain under the cap, especially with the anticipated facilities development programme.

## TREATMENT RELATED COSTS

|                         | Month<br>Actual<br>\$'000 | Month<br>Budget<br>\$'000 | Month<br>\$'000 | Varianc | e | YTD Actual<br>\$'000 | YTD Budget<br>\$'000 | YTD Va<br>\$'000 | ariance |   |
|-------------------------|---------------------------|---------------------------|-----------------|---------|---|----------------------|----------------------|------------------|---------|---|
| Treatment related costs | 651                       | 698                       | 47              | 7%      | ~ | 6,967                | 6,550                | (417)            | -6%     | × |

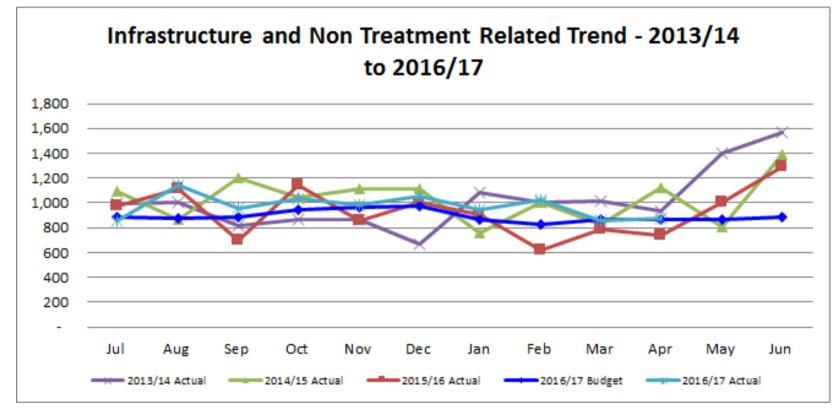

Treatment related costs are favourable to budget for the month. The unfavourable variance over Annual Plan year to date reflects the continued trend in the use of high cost medicines, particularly in Oncology and Rheumatology medicines by some clinicians, there is no sign that this use is abating for the remainder of the year, or the coming new financial year.

**KEY RISKS AND ISSUES:** High costs treatment particularly in oncology and rheumatology medicines is causing significant concern on costs in this category.

## INFRASTRUCTURE AND NON TREATMENT RELATED COSTS

|                             | Month<br>Actual<br>\$'000 | Month<br>Budget<br>\$'000 | Month<br>\$'000 | Varianco | 2 | YTD Actual<br>\$'000 | YTD Budget<br>\$'000 | YTD V<br>\$'000 | ariance |   |
|-----------------------------|---------------------------|---------------------------|-----------------|----------|---|----------------------|----------------------|-----------------|---------|---|
| Non Treatment related costs | 881                       | 862                       | (19)            | -2%      | x | 9,737                | 8,971                | (766)           | -9%     | × |

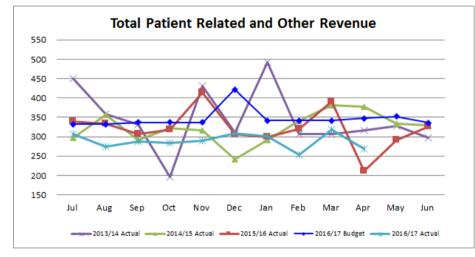

Expenses in this category continue to be closely monitored and we endeavour to make savings and efficiencies as and where available in these categories. This category excludes depreciation and interest expense. (see below).

We continue to monitor areas such as Information Technology, Facilities (Maintenance, Utilities, and motor vehicle expenditure) to ensure they remain within budget. **KEY RISKS AND ISSUES:** Timing influences this category significantly, however overall we are continuing to monitor to ensure overspend is limited where possible.

## **OTHER REVENUE & OTHER COSTS**

| Interest Expense       | -                         | 54                        | 54              | 100%     | ~ | 343                  | 540                  | 197             | 36%     | ~ |
| Depreciation           | 148                       | 380                       | 232             | 61%      | ~ | 2,991                | 3,800                | 809             | 21%     | ~ |
| Capital Charge Expense | 30                        | 82                        | 52              | 63%      | ~ | 643                  | 820                  | 177             | 22%     | ~ |
| Total Other Costs      | 178                       | 516                       | 338             | 65%      | ~ | 3,978                | 5,160                | 1,182           | 23%     | ~ |

Other Revenue this month has been impacted by the variable nature of presentations, clinics and other facilities where co-payments are sourced.

Patient revenue continues to be being lower than expected there is a direct impact on the Other Revenue result this year.

**KEY RISKS AND ISSUES:** Ensuring co-payments are recovered is an issue being closely monitored by the WCDHB. Co-payments stretch from contributions to meals on wheels to partial recovery of clinical services and full recovery from non-eligible patients.

Generally Other Costs are behind budget due to expenditure reduction reviews in particular fixed assets and a drop in the interest rate charged by the NZDMO on MoH loans.

**KEY RISKS AND ISSUES:** Prior to the shift to the new build in 2018, assets not expected to transfer to the new facility will be identified. Any assets not required by the WCDHB in Greymouth will be reallocated to other centres and clinics or otherwise dealt with.

## **FINANCIAL POSITION**

|                              | Month<br>Actual<br>\$'000 | Month<br>Budget<br>\$'000 | Month Variance<br>\$'000 | YTD Actual<br>\$'000 | YTD Budget<br>\$'000 | YTD Variance<br>\$'000 |  |
|------------------------------|---------------------------|---------------------------|--------------------------|----------------------|----------------------|------------------------|--|
| Outsourced clinical services | 115                       | 2                         | (113) -5655% 🗙           | 180                  | 26                   | (154) -591% 🗙          |  |

**KEY RISKS AND ISSUES:** The equity and cash position compared to budget reflect the delay in commencing the Grey Base rebuild.

|------------------------|---|--|----------|----------------------|
|------------------------|---|--|----------|----------------------|

## 1. ORIGIN OF THE REPORT

This report is provided to the Committee as a regular update.

## 2. <u>RECOMMENDATION</u>

That the Committee:

i. notes the Clinical Leaders' Update.

## 3. SUMMARY

## WORKFORCE

## Nursing & Midwifery

With the Nurse Practitioner and Registered Nurse prescribing workforce development underway, a comprehensive governance and clinical support framework has been further developed. Alongside the governance group for supporting and enabling safe prescribing, a peer review group has been established. Both of these groups have a clinical focus and are designed to ensure ongoing professional development, reflective practice and review of clinical decision-making. These groups include the Nurse Practitioner, a Rural Hospital Medical doctor, a Nurse Educator, the Director of Nursing and nurses on both pathways.

Health Workforce New Zealand (HWNZ) funds post-entry training for the development of a workforce that is able to provide the care that is required to a community. HWNZ has recently proposed a change to the way funding is allocated, with a suggested move to an investment approach with contestable funding. The Clinical Leaders provided feedback to the proposal, with a focus on ensuring the dissemination of HWNZ funding reflects cross sector workforce training requirements, and implements a fair and equitable decision-making process that is transparent. Our feedback also highlighted important rural considerations.

## Allied Health

Allied Health are preparing to undertake a programme of workforce analysis and development to ensure we are best placed to respond to the Primary and Community Model of Care, which is currently under consultation. This programme of work will explore clinical and kaiāwhina staff activity, reviewing opportunities and barriers to staff working to the top of their scope, and partnering effectively with other disciplines.

The Calderdale Framework implementation continues with training now being delivered with our kaiāwhina workforce to develop their competence in a range of Clinical Task Instructions (CTI's).

## Medical

The Joint Consulation Committee was held on 5 May 2017 and attended by SMO's, Association of Salaried Medical Specialists (ASMS) and West Coast DHB Executive Management Team representatives. Items discussed included the West Coast Leadership and Management decision document, national ASMS SMO workforce intentions survey, ASMS burnout survey, HWNZ proposed funding model for vocational training. In the afternoon session the SMO engagement workshop was well attended and focussed on developing a medical workforce strategy for future staffing. Presentations on the facilities developments and overview of the Rural Hospital Medicine specialist programme preceded group discussion.

## **QUALITY & SAFETY**

## Nursing & Midwifery

The Nurse Manager Community and Primary Services has been working with local aged residential care facilities to formalise an out of hours process to enable clinical and general advisory support to these facilities. The process includes a pathway for access to the Duty Nurse Manager, so that nursing advice and support can be given when required. It also includes a communication pathway for advice from the emergency department medical team, out of hours. It is anticipated this will enable residents to remain in their home while receiving care, and reduce unnecessary presentations to the emergency department. The plan also includes an escalation plan to the Duty Manager for support for more urgent or serious situations, such as advice for managing civil emergencies. This will further enhance the collaborative approach and support to our partnering aged residential care facilities.

A workshop was recently held to demonstrate the e-meds platform. This electronic tool is designed for inpatient areas and replaces paper based medication charts. The system has demonstrated quality and patient safety benefits including legibility of prescription, and a flag system for when medication doses are due or have been missed. It is currently being utilised within Canterbury Hospital services.

## Allied Health

The Calderdale Framework also offers us opportunities to enhance quality and safety through standardisation of practice; this has been a significant feature of the most recent workshop for Calderdale Framework Facilitators of which the DHB has three. Pathways will be developed to support staff through the analysis and articulation of processes which would benefit from standardisation. These, along with all other Calderdale Framework CTI's and learning tools are now available within the HealthLearn application.

A workshop has been developed to examine the scope and reach of Clinical Social Work within the health setting. This workshop brings together DHB staff, NGO and statutory Social Work partners and funders to understand the current context, the proposed Primary and Community Model of Care, the

Future State for Mental Health services and how services can be delivered in meaningful ways that reach people who need them throughout the district.

## Medical

Hospital HealthPathways is about to be released to use within the DHB. Until recently the "Blue Book" was used to offer guidance for management of medical conditions within hospital services, however this was discontinued in December 2016 in favour of Hospital HealthPathways. At this point the pathways are Canterbury DHB based and will be flagged as such, however within a year we expect to be able to localise them to provide clear guidance to our clinicians about local adaptations to practice. This may include areas such as which service admits a particular group of patients, which will be different to Canterbury DHB practice, or alterations based on local drug availability etc. Until we are able to progress this second stage of work, Hospital HealthPathways will still provide valuable evidence based guidelines for management of many medical conditions for our clinicians and help to ensure that patients are provided with the best care available for their condition. Training sessions for medical, nursing and allied practitioners are being provided in association with the release.

The new eTriage system has been released for use in General Surgery, Gynaecology and Plastic Surgery. This enables clinicians to triage new referrals from primary care within an entirely electronic system ensuring that referrals are monitored and maintained at every step of the process. A referral is commenced in primary care and arrives electronically into the booking system. This is then triaged for urgency by a secondary services clinician and the patient is then booked for their appointment. Previously this has been a paper based system with a risk of misplacement of referrals and significant paper handling required at a number of points. It has been difficult for staff to identify what point a referral has reached previously but with the new system, referrals are continually tracked, cannot be misplaced and staff can easily view where the referral process has reached. We intend to extend the services using eTriage once the current services are up and running successfully.

## 4. CONCLUSION

The Clinical Leaders will continue to work across a range of activities to promote a sustainable West Coast health care service.

Report prepared by: Clinical Leaders

Karyn Bousfield, Director of Nursing Cameron Lacey, Medical Director Vicki Robertson, Medical Director Stella Ward, Executive Director of Allied Health HOSPITAL ADVISORY COMMITTEE MEETING UPDATE 27 APRIL 2017

TO: Chair and Members West Coast District Health Board

## SOURCE: Chair, Hospital Advisory Committee

## DATE: 12 May 2017

Report Status – For: Decision 🛛 Noting 🗹 Information 🗖

## 1. ORIGIN OF THE REPORT

This report is provided to the West Coast DHB Board as an interim update on the Hospital Advisory Committee (HAC) meeting of 27 April 2017.

For the Board's information the functions of HAC, in accordance with their Terms of Reference and the New Zealand Public Health and Disability Act 2000 are to:

- "- monitor the financial and operational performance of the hospital and specialist services of the West Coast DHB; and
- assess strategic issues relating to the provision of hospital and specialist services by the West Coast DHB; and
- give the Board advice and recommendations on that monitoring and that assessment.

The Hospital Advisory Committee's advice to the Board must be consistent with the priorities identified in the New Zealand Health Strategy and with the Strategic Plan of the West Coast DHB."

## 2. <u>RECOMMENDATION</u>

That the Board:

i. notes the Hospital Advisory Committee Meeting Update – 27 April 2017.

## 3. SUMMARY

Detailed below is a summary of the Hospital Advisory Committee meeting held on 27 April 2017. Papers presented to the Committee meeting are available on the West Coast DHB website. A copy of the agenda for this meeting is attached as Appendix 1.

## MANAGEMENT REPORT

This report is intended to:

- provide greater insights into the nature and flow of activity in, and through, the secondary care component of the West Coast health system;
- reflect a patient-centric view of services, being the 'patient journey' through the system; and
- provide the Committee with greater clarity of, and focus on, key metrics.

Philip Wheble, Interim General Manager, Grey/Westland presented the report. He highlighted the following most notable features as:

- Welcome to the new Director of Midwifery Norma Campbell;
- Increased focus on communication on the medical ward; and
- The endoscopy service has continued its strong performance following transformations in the last 6 months.

He expanded on the increased focus on communication and the Committee noted that this focus is across the service as a whole and is a real focus for this year. It was also noted that the majority of complaints received by the DHB have a communication aspect to them. Mr Wheble advised that Brian Dolan, Director of Service Improvement, Canterbury DHB, came to the West Coast and spoke with staff around how we communicate with patients, families and each other which has proved to be very beneficial. In addition the Clinical Nurse Specialist in Morice Ward has been undertaking a lot of work in this area.

In regard to the endoscopy service Mr Wheble highlighted that the West Coast has continued its strong performance in this area following transformations in the last 6 months. February data has it at number 2 nationally against the Ministry of Health colonoscopy indicators. An Endoscopy Nurse coordinator has been employed to continue the transformation into a patient focused service and support the work towards the accreditation needed in preparation for a bowel screening program rollout.

Discussion took place regarding DNA rates and the Committee noted that management are looking to see what can be done differently and how we communicate with our patients in a timely manner. Some work has been undertaken around getting appointment advice out earlier and this appears to be impacting on the DNA rates.

Discussion took place regarding transport options and whether these are detailed in the advice letters. The Committee noted that this is mainly provided for patients travelling to Christchurch under the National Transport Agreement however we are reviewing whether we are providing the correct information and if it is in a timely manner.

A query was made regarding the provision of an advocate when patients do not have support and it was noted that the DHB does try to encourage this and is part of the whole communication package.

Discussion took place regarding the communication being provided to patients who are referred back to their GP for treatment when they do not meet the criteria for surgery and updates on this will be provided as required.

The Committee asked for some reassurance that there is some mitigation taking place around ESPI compliance and it was noted that work is continuing around this with teams in Christchurch regarding solutions. Whilst the DHB will not be "red" in month 4, there is no assurance of a sustainable solution as yet.

The report was noted.

## FINANCE REPORT

Justine White, General Manager, Finance, presented this report which showed that the consolidated West Coast District Health Board financial result for the month of March 2017 was a deficit of \$93k, which was \$72k unfavourable to budget. The year to date position is \$161k unfavourable.

Ms White advised that there are essentially two concerns currently: personnel costs; and patient revenue.

Contributing to the personnel costs is the additional work required to meet ESPI targets and in the revenue area a lot of work is being undertaken to understand why this is lower than expected and the outturn for the rest of the year.

A query was made regarding how the DHB prioritises where the money is spent and it was

noted that Clinicians make collective decisions around where we put our resources. There is also the tension of individual treatment versus the whole system and we try to put the patient at the centre of these decisions.

The report was noted.

## CLINICAL LEADERS UPDATE

The Clinical Leaders is provided in today's Board papers.
