2011/12 QUARTER ONE RESULTS

West Coast District Health Board
Te Poari Hauora a Rohe o Tai Poutini

Shorter stays in

Emergency Departments

Shorter stays in Emergency Departments

The target is 95 percent of patients will be admitted, discharged, or transferred from an Emergency Department (ED) within six hours. The target is a measure of the efficiency of flow of acute (urgent) patients through public hospitals, and home again.

Improved access to

Elective Surgery

Improved access to elective surgery

The target is an increase in the volume of elective surgery by an average of 4,000 discharges per year.

DHBs planned to deliver 37,280 discharges year to date, and have delivered 1,275 more.

Shorter waits for

Cancer Treatment

Shorter waits for cancer treatment

The target is everyone needing radiation treatment will have this within four weeks. Six regional oncology centres provide radiation oncology services. These centres are in Auckland, Hamilton, Palmerston North, Wellington, Christchurch and Dunedin.

Increased

Immunisation

Increased Immunisation

The national immunisation target is 95 percent of two year olds will be fully immunised by July 2012.

This quarterly progress result includes children who turned two years between July and September 2011 and who were fully immunised at that stage.

Better

Diabetes and Cardiovascular Services

Better diabetes and cardiovascular services

This graph represents the average progress made by a DHB towards three target indicators:

- 90 percent of the eligible adult population will have had their cardiovascular disease risk assessed in the last five years;
- an increased percent of people with diabetes will attend free annual checks;
- an increased percent of people with diabetes will have satisfactory or better diabetes management.

** Data is incomplete due to system change.*
