

Shorter stays in

Emergency Departments

Shorter stays in Emergency Departments

The target is 95 percent of patients will be admitted, discharged, or transferred from an Emergency Department (ED) within six hours. The target is a measure of the efficiency of flow of acute (urgent) patients through public hospitals, and home again.

Improved access to

Elective Surgery

Improved access to elective surgery

The target is an increase in the volume of elective surgery by an average of 4,000 discharges per year.

* DHBs planned to deliver 106,783 discharges year to date, and have delivered 5,011 more.

Shorter waits for

Cancer Treatment

Shorter waits for cancer treatment

The target is all patients, ready-for-treatment, wait less than four weeks for radiotherapy. Six regional oncology centres provide radiation oncology services. These centres are in Auckland, Hamilton, Palmerston North, Wellington, Christchurch and Dunedin.

This is the first time the new target is being reported. The results are provisional while we confirm the data.

Increased

Immunisation

Increased Immunisation

The national immunisation target is 95 percent of two year olds will be fully immunised by July 2012.

This quarterly progress result includes children who turned two years between January and March 2012 and who were fully immunised at that stage.

Better help for

Smokers to Quit

Better help for smokers to quit

The target is that 95 percent of hospitalised smokers will be provided with advice and help to quit by July 2012. The data covers patients presenting to Emergency Departments, day stay and other hospital based interventions.

More

Heart and Diabetes Checks

More heart and diabetes checks

The target is that, by July 2012, 60 percent of the eligible population will have had their cardiovascular risk assessed in the last five years. This target will increase in stages each year to 90 percent by July 2014. Because this is a new health target, no comparison can be made between the results this quarter and data from the previous quarter. Results for the diabetes indicators from the previous CVD/Diabetes target can be found on www.health.govt.nz/healthtargets
