MINUTES OF THE TATAU POUNAMU MANAWHENUA ADVISORY MEETING

MINUTES OF THE TATAU POUNAMU MANAWHENUA ADVISORY MEETING Board Room, Corporate Services Thursday 19 May 2016 @ 3.00pm

PRESENT: Lisa Tumahai, Te Runanga O Ngāti Waewae (Chair)
Francois Tumahai, Te Rūnanga O Ngāti Waewae
Elinor Stratford, West Coast DHB Representative
Susan Wallace, Te Runanga o Makaawhio
Wayne Secker, Maori Community Mawhera
Paul Madgwick, Te Runanga O Makaawhio
Gina Robertson, Maori Community Kawatiri

IN ATTENDANCE: Kylie Parkin, Acting General Manager Maori Health
Philip Wheble, Manager Planning & Funding
Claire Robertson, Community Public Health
Mal Robson, Acting General Manager Mental Health
Jenni Stephenson, Planning & Funding

APOLOGIES: Mark Newsome, General Manager Grey/Westland
Gary Coghlan, General Manager Māori Health
Cameron Lacey, Director of Mental Health

MINUTE TAKER: Megan Tahapeehi, Maori Health

WELCOME / KARAKIA

Paul Madgwick /Susan Wallace

AGENDA / APOLOGIES

1. DISCLOSURES OF INTEREST

- Gina Duncan
Remove:
 - Member of MSD Service Provider for Youth
 - Buller Reap Youth Co-ordinator**Add:**
 - Contract Advisor for Te Putahitanga
 - Buller High School Board of Trustee
- Susan Wallace
Remove:
 - Member, of the West Coast District Health Board
- Francois Tumahai
Add:
 - Member, of the West Coast District Health Board

- Lisa Tumahai

Remove:

- Trustee of Te Poari o Kati Waewae Charitable Trust

2. MINUTES OF THE LAST MEETING

Moved: Susan Wallace

Second: Elinor Stratford

Carried

3. Carried forward/Action List Items

No. 4 – Maori Representative Appointment Requests

Alliance Leadership Team – Carl Hutchby will be appointed to the ALT.

PHO Clinical Governance Group – Richard Wallace was supported as the reappointment to the Clinical Governance Group.

Moved: Francois Tumahai

Second: Gina Duncan

Abstention: Susan Wallace

ACTION: Megan to advise Helen Reriti of this confirmation.

Maternity Quality & Safety – There has been a request for a Maori Consumer representative to participate in this group. A member commented that it may be a good idea to identify a mum from the Mana Tamariki Mana Mokopuna group for this role.

ACTION: Kylie will speak with the Director of Nursing to clarify the requirements of the position.

ACTION: Provide a list of the groups and who is on them in terms of Maori consumer and non Consumer Maori.

No. 5 - Whanau Ora

This will be an ongoing action on the register.

ACTION: Seek some advice or information from Te Putahitanga who are having some high level conversations with the Ministry of Health around the forming of a Memorandum of Understanding and to see what the purpose of this is and if it is something that we could mirror here on the West Coast.

ACTION: Gina Robinson to speak with the appropriate person within Te Putahitanga who could assist with in helping to move this forward.

Initially this korero was to work on developing consistent messaging across the DHB within the various plans and documents with regards to Whanau ora and ensure a common understanding of the philosophies that sit behind whanau ora.

ACTION: Keep within the action register

No. 9 – DNA Update

Carried over

No 10. - Health Services for Westland

Members noted the ongoing issue of lack of choice of primary care for whanau.

Phillip Wheble explained that there are a number of factors:

- DHB owned Greymouth practices should have their books open as a second option
- If another practice opened in Westland low cost access would not be available
- Whanau Ora navigators can work closely with whanau to assist and advise around the complaints process if they are unhappy with quality of service
- There will be an opportunity for the community to participate in a DHB driven hui in the upcoming months around how we can improve access to health services in Westland. Members of Tatau Pounamu wanted this audience to include Runaka, Grey Power and other key community groups.

No 11 - Rangatahi

Conversations are yet to be held with Mokowhiti Consulting who lead the Kia ora Hauora on the West Coast. Tatau Pounamu reiterated the importance of making the right connections and to ensure alignment with the Ngai Tahu programmes.

A face to face meeting is arranged with Mokowhiti Consulting on the 21 June.

No 12 – Maori Mental Health Kaumatua Appointment

Carried over.

Runaka Chairs will discuss and bring feedback back to Tatau Pounamu.

ACTION: Rununga Chairs to action.

A G E N D A

Child & Youth Update – Jenni Stephenson

Jenni Stephenson came and provided the following key updates on work being undertaken within Child & Youth on the West Coast:

Gateway Assessments

- Meeting with MSD re contract and service delivery
- Actions to improve quality & timeliness
- Also providing health assessment for Young Offenders

www.youthwestcoast.co.nz

- PHO launched this website in February following development and testing that included young consumers
- GoFlo Workshops across the Coast reached 383 students – counteracting negativity from Girls of Concern & promoting website
- Visual arts competition to launch soon with same goal

Greymouth High School Young Mentors

- Led by Head Boy
- Supported by school, WestREAP and YHAG

School Based Health Services

- Delivering to Yr 9 students at Westland High
- Delivering to Yr 9, 10 and 11 students at South Westland Area School

Youth Health & Wellbeing event

- 31st May after school at Gap Café, free food and give aways
- Informal opportunity for 12-24 yr olds to talk to professionals about health & wellbeing

ACTION: Jenni Stephenson will provide a copy of who is on the Gateway Assessment Team.

Community Public Health Update – Claire Robertson

Tobacco realignment – CPH have been identified as the preferred provider. The Ministry of Health will visit the Coast to meet with the Alliance partners who were involved in the ROI/RFP process to discuss the new service model and to learn about partner contributions to the service. From this meeting the Ministry will develop new service specifications.

Health Promoting Schools – There were two workshops held and Cognition came and provided these. There were forty participants including rangatahi. It was a full day and a good opportunity for Maori students. The important messages from the day will be passed onto the schools that were not able to attend. Whanau engagement was a big discussion alongside complex needs within whanau and how this impacts on education.

Ag Fest – *Flu Vaccination* – PHO led this initiative for Farmers and Kaumatua. A discussion then arose around how we use such initiatives to reach the most vulnerable audiences i.e.; those that fall outside of elderly etc. There has been a trial happening this year with one pharmacy on the West Coast who provided their premises to provide flu vaccinations. There could be an opportunity next year to align local Marae with flu vaccination clinics.

Grey/Westland Update – Phillip Wheble

- Jane George – New Associate Director of Allied Health.
- Telehealth Report – The intent of this work is to identify opportunities where telehealth can reduce travel time for patients in a clinically viable way. The report has been presented to Senior Medical Officers and had a really positive response. Oncology and paediatrics are leading the way with the use of telehealth and there is now more of a willingness to begin thinking about how telehealth can be used across other service areas.

ACTION: Provide a copy of the Telehealth Report

Alliance Update – Phillip Wheble

- South Westland Medical – Virtual receptionist. The community phoning for an appointment or calling a nurse then and there. This has been really successful. 3x objections – greater access, remove the burden of afterhours and release current administration staff for more patient focus and clinical support. All of these have been achieved and the community meetings have been very positive. May look to extend further. Trial is South Westland. If the feedback is positive then we can begin to look how this may be used in other areas. Also aligns to patient portal which is an online interaction with GP. Book appointments on line and sometimes have a discussion with GP – this is a little further down the track. All of this is around interacting with primary care in different ways. Looking to trial in Grey Medical Centre.

- How nurse specialists can have better access to medtec services. A wider discussion will need to happen with Poutini Waiora as they currently have their own med tec system.

Risk Section – Alliance Update

- Risk section of workstream for health inequity delayed to quarter two.
- Buller AOD System Improvements – Could there be some comments around AOD support services also in Grey and Westland Actions. – How does this interact with the whole of the system

Health inequity is an issue that all workstreams want to address within the scope of their services.

Maori Mental Health Update

Mal Robson – Acting Manager Mental Health Update

Mal Robson was unable to provide an update on the current status of the Mental Health Review – an update will be provided at the next meeting in June.

ACTION: Check Mark Newsome availability to attend the June meeting to update the:

- WC Suicide Governance Group
- WC Suicide Prevention Action Group
- Post Vention Group and Suicide Post Vention Group

ACTION: The Chair requested a full update of what groups are currently in place within the review and a list of all members and the functions of each of these groups.

Suicide Prevention and Postvention Plan

A member queried the Maori numbers in the Suicide Prevention and Postvention plan as they are lower than what they should be. Discussion occurred around the data collection and how the data is collected and clearly a number of individuals have not identified as Maori. A person can be questioned everytime they present and this is a personal choice.

A lot of this information comes through suicide, victim support, police who may also have conflicting data. Post Vention group was generated as a result of the suicides.

ACTION: Require someone to come and speak to the action plan report that was provided.

Message to the governance group was that Tatau Pounamu need to be engaged and informed regularly.

It is also understood that some joint hui have been held with whanau around mental health. Members questioned what these hui were about and would like to know more about the outcome.

ACTION: Get feedback from those involved on the outcome of these hui.

Maori Mental Health - Te Rauawa have non-clinical Pukenga who cover the West Coast. Mal believes that the lack of clinical has a significant impact on what needs to be provided for Maori and is working towards addressing this.

Maori Health Action Plan Update

The final draft is with the Ministry awaiting final feedback. Kylie noted that she hadn't received a lot of feedback and would like the group to provide feedback to the Local Indicator around Suicide Prevention for Maori. The first round of feedback from the Ministry was positive with just a few technical issues to address.

ACTION: Kylie to cut the local suicide indicator out and e mail around for feedback.

Cervical Screening Statistics for the South Island

The Chair was recently at a Te Waipounamu Maori Cancer Leadership Group Meeting. CDHB network did a presentation and on that the West Coast statistics for cervical screening were really poor. 64% and was showing as the lowest DHB. Kylie commented that there is a lot happening at regional level and that the West Coast definitely did not have the lowest uptake for screening. There is a great amount of work occurring locally and we will hope to see some benefits from this in the near future. NB National Cervical Screening data is always a quarter behind.

Additional Agenda Item

Elinor Stratford advised that there will be a Disability Information Service Consultation Hui on the 28 June on the West Coast. The consultation meeting is to discuss the proposal of a portable kiosk. The innovative idea will have television screens and will highlight awareness days and other relevant key information.

The meeting will be held by executives and this is to make a decision. It is hoped that a collective be formed for the overarching body.

Meeting Finished 5.45pm

MATTERS ARISING MARCH 2016 MEETING 2016

Item No	Meeting Date	Action Item	Action Responsibility	Reporting Status
4.	12 May 2016	Amendments for Tatau Pounamu Terms of Reference & Renewal of Memorandum of Understanding The Terms of Reference were officially signed at the March meeting with the Board and Runanga Chairs.		June Meeting
4.	12 May 2016	Maori Representative Appointment Requests <ul style="list-style-type: none"> - Alliance Leadership Team – Carl Hutchby will be appointed to ALT. - PHO Clinical Governance Group – Richard Wallace was the supported reappointment to this group <p>An update on Maori Community Representative vacancies within key DHB workstreams to be provided at the next meeting.</p>	General Manager, Maori Health	June Meeting

i notes the General Manager Maori Health Update

Maori Health Quarterly Report – Q3, 2016/17

Access to care

Percentage of Maori enrolled in the PHO

PHO enrolment using 2013 Census population data

* 2006 census population was used as the denominator.

ACHIEVEMENTS/ISSUES OF NOTE

Enrolment in PHO

Using the 2013 population census figures 105% of Maori were enrolled with the PHO as at 31 March 2016. 3319 Maori were enrolled in quarter 1 compared to 3312 in quarter 3 an increase of 07 and an increase from 3205 (107) from end of June 2014.

The Census data shows total Maori population is 3171.

Child, Youth and Maternity

NEW Immunisation HT: Eight-month-olds fully immunised

Immunisation: Two-year-olds fully immunised

Eight-month-old immunisation

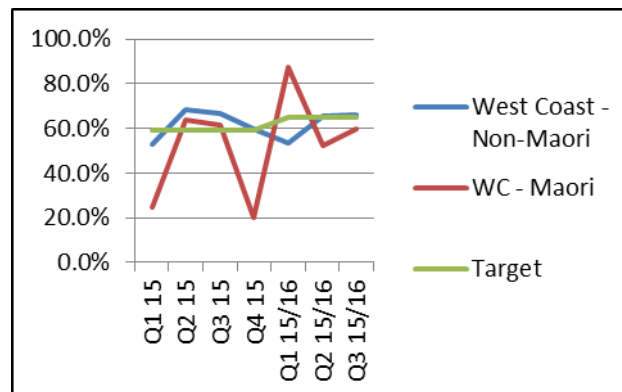

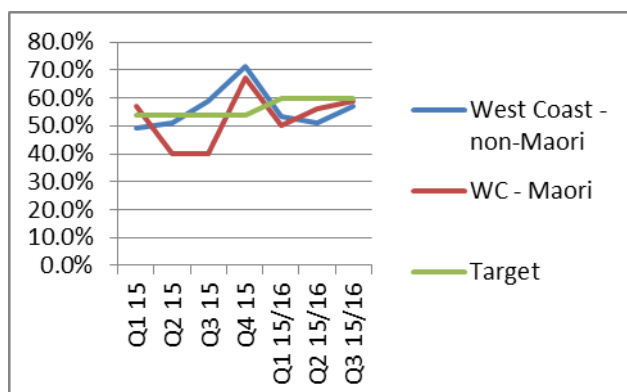

100% of Maori babies have been immunised on time at 8 months of age in quarter 3 16 babies out of 16 eligible for this quarter. This is compared 98% of non-Maori babies – 45 out of 46 eligible babies fully immunised at the 8 months milestone.

Two-year-old immunisation

100% of Maori 2 year olds have been immunised on time in Quarter 3 – 23 from 23 eligible babies. This is compared to 90% NZ European babies - 46 from 49 eligible babies.

Excellent results for Maori with 100% of 8 month and 2 year olds immunised on time in Quarter 3.

Percentage of West Coast babies fully/exclusively breastfed at 3 months and receiving some breastmilk at 6 months

Breastfeeding Support

At the end of Quarter 3 Maori is only 1% away from the 60% target of babies fully/exclusively breastfed at 3 months with an increase from 56% in Quarter 2 – this is compared to 57% of non-Maori. 60% of Maori babies are receiving some breastmilk at 6 months which is 5% from target compared with 66% of non-Maori babies.

Plunket Breastfeeding Stats

In the last quarter (Jan-Mar) the breastfeeding rate at 2-5 weeks was 72% (of 42 mums), at 6-9 weeks 62% (of 55 mums), at 10-15 weeks 57% (of 70 mums), and at 16 weeks-5mo 19% (of 68 mums).

Maori

2-5 weeks 88% (7 out of 8 total), at 6-9 weeks 80% (12 out of 15 total), at 10-15 weeks 59% (10 out of 17 total), and at 16 weeks-5mo 7% (1 out of 15 total).

The community lactation consultancy and breastfeeding advocates continue to be in contact with all new-born's Mums through the Newborn enrolment process. Of 47 advocacy clients in Q3 9 were Maori.

11 women are currently undergoing Mum4Mum training, due to graduate in Q4; this includes 7 wahine from the Mana Tamariki Mana Mokopuna project.

More Heart & Diabetes checks

Diabetes Annual Review: % of people estimated to have diabetes who have had an annual check during the year

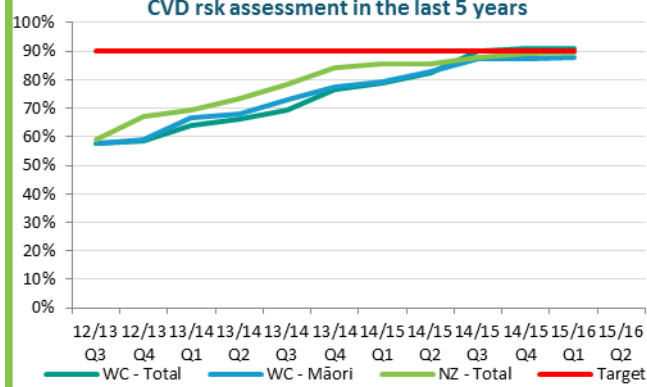

Diabetes Good Management: % of people who have HBA1c levels at or below 8.0 when assessed at their annual check

More Heart and Diabetes Checks Health Target: % of eligible PHO population having had a CVD risk assessment in the last 5 years

CVD health target: Eligible population having had a CVD risk assessment in the last 5 years

Diabetes

Maori still continue to show a good rate of access to Diabetes Annual Reviews. 58 Maori have participated in a Diabetes Annual Review year to date at the end of quarter. 90% of Maori with diabetes have had Retinal Exams and 64% show HBA1c levels at or below 8.0, 57% are non-smokers and 48% are on statins: As reported previously, performance against achieving good management of diabetes decreased during the rolling twelve months to December 2015. Among those who had their annual review, 64% of the estimated diabetic population had satisfactory or better management of their diabetes against the 80% target. Maori results also decreased at 30%. This is measured by the clinical indicator of HbA1c ≤ 64 mmols/mol.

CVD Health Target

West Coast general practices have maintained coverage this quarter, with 90% of the eligible enrolled West Coast population having had a cardiovascular risk assessment (CVDRA) in the last 5 years. Maori make up 10% of CVRAs this quarter a jump from 5.7% in the last quarter. By comparison, Maori make up 10% (1034) of the eligible cohort for CVRA on the West Coast. (The eligible age range for Maori is male 35-74 years and for female 45-74 years). 88% of those eligible have been screened: this includes 85% of eligible males and 91% of eligible females.

The smoking profile for CVRAs completed this quarter for Maori is 51% not smoking compared with other ethnicities screened not smoking 80%.

Green Prescription

Quarter 3 data shows from 93 referrals to the Green Prescription programme in the Grey/Westland district 12 were for Maori (12%), 31 total referrals were made in the Buller district with 6 (19%) being for Maori. The major group of conditions this quarter is people with elevated body mass index (BMI), followed by depression/anxiety and cardiovascular disease.

Long Term Condition Management (LTC)

231 Maori are enrolled in the Long Term Conditions programme as at March 31 2016. Maori enrolments make up 6.4% of all enrolment in the LTC programme. The target is 7.6%. For comparison Maori make up 6.4% of the enrolled population at the primary practices aged 45 years and above.

Cancer

Percentage of eligible Maori women (45-69) receiving breast screening examination in the last 24 months ending

Percentage of eligible Maori women (25-69) receiving cervical screening in the last 3 years

ACHIEVEMENTS/ISSUES OF NOTE

Table 1: NCSP coverage (%) in the three years ending 31 December 2015 by ethnicity, women aged 25–69 years, West Coast District Health Board

Ethnicity	Population	Women screened in last 3 years	3-year coverage	Additional screens to reach 80% target*
Māori	844	560	66.4	115
Pacific	75	55	70.5%	7
Asian	345	182	52.3%	96
European/Other	7,479	5,734	76.7%	249
Total	8,749	6,531	74.6%	468

Cervical cancer screening

At the end of March 2016, the preliminary three year coverage result for cervical screening on the West Coast non-Maori was 66.4% an increase of 5%. The result for Pacific women was 70.5% an increase of 10% and for New Zealand European an increase of 2% at 76.7%. The number of women required to reach the 80% national target has dropped in this quarter to 468 from 707. There has been a targeted effort to co-ordinate the resource working on cervical screening on the West Coast; this has included the practices, Poutini Waiora and the DHB Maori/High Needs Screener working in a more aligned way.

Table 1: BSA coverage (%) in the two years ending 31 March 2016 by ethnicity, women aged 50–69 years, West Coast District Health Board

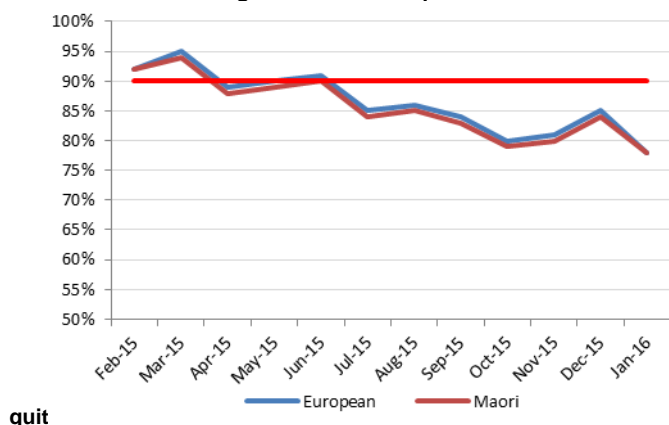

Ethnicity	Population	Women screened in last 3 years	2-year coverage	Additional screens to reach 70% target*
Māori	385	265	72.6	
Pacific	25	8	32	10
Other	4256	3356	78.8	
Total	4650	3630	78.1	

Breast cancer screening

At the end of March 2016 the preliminary two year coverage result for breast screening on the West Coast continues to be above the target for all ethnicities except for Pacifica where we need an additional 10 to achieve the target.

SMOKING CESSATION

Primary Smokefree Health Target: Smokers attending primary care given advice & help to

Secondary Smokefree Health Target: Hospitalised smokers given quit advice & help

ACHIEVEMENTS/ISSUES OF NOTE

Primary care better help for smoker's health target

As reported previously, performance disappointingly decreased in Quarter 2, with 84.8% of smokers enrolled with the PHO provided cessation advice in the 15 months ending December 2015. We expect data for Quarter 3 in the coming weeks.

Secondary care better help for smokers to quit health target

During Quarter 2, West Coast DHB staff provided 96.4% of hospitalised smokers with smoking cessation advice and support, meeting target. Data for Quarter 3 is expected by the end of the month. It is pleasing to see that 100% of Maori patients who smoke have been given quit advice and help.

Spirometry and Pulmonary Rehab Clinics

The WCPHO and Poutini Waiora have provided another Spirometry clinic with the Buller Health Medical Centre to provide screening spirometry tests for all consenting Maori smokers and ex smokers 45+ years old. The purpose of the initiative is to detect early disease in relatively asymptomatic smokers or ex smokers with significant history, so that they have the opportunity to receive early intervention and to promote smoking cessation in this at-risk group. In addition the clinic provides an opportunity to address other health needs for clients through a Whanau ora model of care. Through these clinics clients are offered increased access to screening, treatment and follow-up for themselves and their whanau. Support for cessation is provided by Community Public Health – Aukati Kaipaipa and the WCDHB Respiratory Nurse Specialists provide expertise.

9 people attended the clinic 7 Maori and 2 other. Other interventions provided as a result of this clinic were: 4 referrals for cervical screens and 7 CVRA's.

As a result of the Spirometry Clinic held earlier in the year in Hokitika the WCDHB Respiratory Nurse Specialist has delivered a Pulmonary Rehab clinic in Grey Based Hospital. This was held in collaboration with the Poutini Waiora Kaupapa Maori Nurses and consisted of two sessions per week for eight weeks. The clinic included physiotherapy, education from dieticians, occupational therapists, clinical psychologist, pharmacist and the respiratory educator and physical activity.

6 Maori attended the Pulmonary Rehab Clinic which is an outstanding result. We are now working together to identify a pathway for ongoing support for those Maori who completed the Rehab clinic.

Hauora Maori Workforce Development

We have 4 people from the West Coast participating in the Level 4 Certificate in Hauora Maori and in the Level 6 Diploma in Hauora Maori.

The Certificate explains the principles and key concepts of Hauora based on a Maori world view. It also explores Maori models of Hauora and their application in a work context and examines the application of more operational tools such as assessment, referral and Maori methods of communication used by kaimahi in a Hauora context. The level 6 Diploma builds on this to examine Maori health initiatives such as auahi kore, korikori tinana, tamariki ora, whanau ora and the Treaty of Waitangi.

We now have a considerable number of Kaimahi across the sector who have completed the certificate and have progressed on to the Diploma and are working in either public health the DHB or the Maori Health Provider. They are supported by Health Workforce NZ through the DHB Hauora Maori training fund.

Improving the Cancer Pathway for Maori (Phase 2)

Extend the Maori Cancer Pathway Project to other South Island DHBs

This project has been divided into two parts. Part 1 is the implementation of a specific initiative to address elements of the system that inhibit equity in the cancer care for Maori. The initial implementation is within Nelson/Marlborough where the 2014/15 project has set the scene for this further development. Concurrently the Southern Cancer Network have some existing resource to support Part 2 of the project and after an RFP process have contracted Dr Melissa Cragg to roll out the Maori Cancer pathway project to other South Island DHBs – the primary purpose of this work will be to identify issues and options confirmed for each DHB, create connections forming the platform for designing and implementing service improvements.

We look forward to working with Dr Cragg on this piece of work. Dr Cragg has already delivered the findings of Phase 1 of the Nelson/Marlborough research to various audiences within the health sector and Maori community. This research confirmed that Maori often present late or not at all for diagnosis and treatment resulting in poorer outcomes.

Poutini Waiora

A mihi whakatau was held on the 26 April to welcome 2 new Kaimahi to the organisation and in to the positions of Mama and Pepi and Tamariki ora Nurse within the Maori Health Provider. These 2 positions will work very closely together to provide a wraparound service focused on the delivery of timely access to well child core checks for Tamariki and providing support in antenatal education, breastfeeding education and support, parenting, oral health education, nutrition advice and linking into other services as required for Mum and baby from conception.

Cervical Screening

Te Herenga Hauora and South Island Southern Cancer Network: Cervical Screening Project

THH and the SCN have been considering how best to maximise the 'inequalities resource' within SCN for the next 18 months. A component of the resource has been committed to supporting Cancer Pathway Projects for Maori as part of the Faster Cancer Treatment initiative in conjunction with Nelson Marlborough. The priority identified across the South Island, with the guidance from Te Herenga Hauora is to support the uptake of both the breast & cervical screening programmes as per the objectives below.

- Public Health to conduct a literature review of current performance and understanding the barriers to the up-take of the cervical screening programme
- Stocktake of cervical screening stakeholder and services across the South Island and from the analyses, develop, implement and evaluate proposed changes.

South Island Alliance Workforce

The Te Wai Pounamu Maori health workforce plan is to be reviewed and refreshed. The South Island Workforce Development Hub will work with the South Island Maori GMs on this. Gary Coghlan will lead this work alongside Pania Coote, GM Maori Otago/Southland DHB.

Tumu Whakarae

Regional Leads met with General Managers and Planning & Funding leads recently. A meeting was organised by Janet Mclean, Bay of Plenty DHB on behalf of Tumu Whakarae. There was agreement to champion health equity and health literacy in our system moving forward. The following actions were agreed:

- Joint communication promoting our commitment to work together. This will be submitted to Maori health publications in the next month.
- Key project development on a joint submission on Oral health
- Work together on the pharmacy agreement (re: equity) with a focus on health equity, mental health and health of older people.
- PHO national agreement (health equity focus)

Te Rau Matatini

Recently the South island General Managers Maori meet with Te Rau Matatini. TRM is open to forming key strategic relationships and the discussion focused on how resources can be shared more effectively and the priorities for the Maori workforce around cultural competency.

A commitment was made to maintain communication, develop links to keep each other informed as we plan and move forward with the intention of identifying specific training opportunities and need within each region.

The Maori Health Action Plan

The Maori Health Action Plan first draft is currently being developed and will follow the same format as the other plans under development as part of the planning cycle. The National priorities remain very similar to last year with an Asthma indicator being added and all three CVD indicators removed. The oral health target now sits under the regional priorities and has been increased to 95% of pre-schoolers enrolled in the community dental service.

The expectations are largely focused on child and youth health and prevention services with breastfeeding, smoking, screening rates, immunisation and oral health indicators continuing to have prominence in the Plan.

The development of the Maori Health Action Plan will be led by the General Manager and Portfolio Manager for Maori Health, in conjunction with the PHO and Poutini Waioara. The final Plan will also be completed with advice and input from Tatau Pounamu who has had a planning session to identify local priorities. These priorities are Oral health, healthy environments with a focus on nutrition and physical activity and targeted smoking cessation. It was also agreed that there will be a continued focus on a targeted approach to improve Maori engagement across all Long Term Conditions clinical programmes.

Gary Coghlan, General Manager Maori Health

MAORI HEALTH PLAN VERBAL UPDATE

TO: **Members**
 Tatau Pounamu Advisory Group

SOURCE: **Kylie Parkin, Portfolio Manager Maori Health**

DATE: **23 June 2016**

Report Status – For: Decision ☐ Noting ☒ Information ☐

1. ORIGIN OF THE REPORT

The verbal update.

2. RECOMMENDATION

That the Tatau Pounamu Advisory Group notes the verbal update will be given at the meeting.

REPORT to WCDHB CPHAC/DSAC COMMUNITY AND PUBLIC HEALTH (CPH)

June 2016

Alcohol Licensing

CPH staff presented before the Westland District Licensing Committee (DLC) on 23 May in opposition to a proposed new off licence in Hokitika. The DLC chairman called the hearing to close at 5.00pm and agreed that closing submissions could be provided in writing by the applicant's lawyer and CPH's Senior Alcohol Licensing Officer (on behalf of the Medical Officer of Health). CPH's closing submission was lodged on 31st May and the applicant's closing submission is required to be with the DLC by 7th June. The DLC has reserved its decision on the application.

WCDHB Healthy Food and Drink Policy

Following feedback from key national and local stakeholders, the nationally aligned WCDHB Healthy Food and Drink Policy has been finalised. The policy has been informed by the NZ Eating and Activity Guidelines (2015), National Heart Foundation guidelines for healthy cafeteria food and the Health Star Rating for packaged goods. The local endorsement process has begun and includes a number of groups within the DHB.

Stop Smoking Services RFP

CPH has been identified as a preferred supplier for a new stop smoking service on the West Coast conditional upon negotiations. CPH and Healthy West Coast Governance Group partners met with Ministry representatives on Monday 30th May to discuss the proposed service which will deliver cessation support to identified priority groups: Maori, Pacific people, pregnant women and mental health clients. Negotiations with the Ministry over contract service specifications continue and we are aiming for a smooth transition to the new service from 1st July.

World Smokefree Day

Tuesday 31st May was World Smokefree Day. The theme this year was "It's about Whānau". Members of the West Coast Tobacco Free Coalition were promoting smokefree lives outside Mitre 10 in Greymouth on the day. The recent Budget announcement of 10% increases in the price of tobacco products each year for the next four years is also timely.

Nutrition Health Promotion

As part of our ongoing work with Early Childhood Education Centres, CPH were involved in the Teddy Bears Picnic held recently in Westport. This Saturday event was aimed at engaging families with children under five, whether or not they currently attend an Early Childhood Centre. The day had a strong emphasis on nutrition, oral health and healthy lunchboxes. CPH also ran an Early Childhood Nutrition workshop in Ross, with 12 parents and 18 children present. It was a great way to promote oral health in a rural community.

CPH have recently started our nutrition workshops for the Mana Tamariki Mokopuna project, working with Poutini Waiora. This is aimed at mothers with young children and we will be covering topics such as lunchbox ideas, breakfasts, quick healthy kai, supermarket shopping, and healthy eating when out and about. A Greymouth Appetite for Life course has started in Greymouth, with strong numbers (11) and participation each week.

Council Annual Plan Submissions

CPH have submitted on all four West Coast Council Annual Plans and are in the process of speaking to our submissions. Our submissions focussed on public health issues such as water, sewerage, emergency management, environments that encourage physical activity and support for implementing healthy homes initiatives.

Healthy Homes Project in Buller

CPH is a member of the Te Hā o Kawatiri Healthy Homes project which is currently developing a plan to improve housing quality in the Buller area. The project is initiating relationships with stakeholders including Community Energy Action in Christchurch, Te Puni Kokiri and other interested parties.

Safe Communities Westland

CPH is a member of the Westland Safer Community Council which is in the process of being accredited as a New Zealand Safe Community. The group have recently met with the accreditors and it is expected that sign off will occur in the next month or two.

Mindfulness in Schools

CPH and BullerREAP have been facilitating the Mental Health Foundation's Mindfulness in Schools programme - Pause Breathe Smile - in Reefton Area School. Two classes finished the programme in week 1 of term 2 with positive feedback from students and teachers. An evaluation of the programme is currently being completed which will include feedback from school staff and the facilitators. A new course has started at Paparoa Range School which will run through term 2.

TATAU POUNAMU MANAWHENUA ADVISORY GROUP 2016 MEETING SCHEDULE
